

About

Who are ALAB Environmental Services Ltd?

ALAB is a versatile waste management organisation built on total reliability and respect for the environment.

ALAB has developed its Seaton Meadows facility to meet the requirements of “The Landfill (England and Wales) (Amendment) Regulations 2005”, “Waste Acceptance Criteria 2005” and the “Hazardous Waste (England and Wales) (Amendment) Regulations 2009”.

ALAB have developed the Seaton Meadows Landfill Site into a versatile facility through an on-going investment programme to provide purpose built cells that can accept Hazardous (asbestos and construction waste containing asbestos), Non-Hazardous (including inert) and Stable Non-Reactive Hazardous waste.

ALAB's highly experienced management team are available to offer advice and solutions to customers. Our excellent knowledge of the landfill, treatment, & transfer of waste operations means we can assist on a wide range of issues.

ALAB have a dedicated Sales department, which specialise in offering ‘Total Waste Management’ solutions to our customers. This service starts by taking the customer through the initial waste assessment to the final transported disposal of your waste materials. At all times we will ensure that you meet all of your obligations under the complex UK environmental legislation.

ALAB Environmental Services Ltd is registered in England No.2712039
