**The Alab Contribution:**

Notification of hazardous waste producer sites

Preparation of Consignment Notes

Organising the delivery from site to laboratory and the accredited analysis of samples for characterisation, acceptance testing, and compliance

Interpretation of laboratory results, including recommendations if alternative disposal required

Advising on the waste category and disposal site options

Provision of training for your staff

Liaison with your customers to explain why information or action is required

Producing customer waste returns

Assisting with any other aspect of waste management where we are competent to advise

**The Customer Contribution:**

Provision of all requisite information required to enable Alab to perform the services described above.

Prompt payment of accounts!

**Service Charges (July 2006, valid for 12 months)**
